GRADUATING CLASS—1887.

Name.	Thesis.
John W. Achorn, A. B.,	Where shall the Maine Graduate Settle?
Henry D. Averill,	Pathology of Inflammation.
Edward E. Baker,	Phthisis Pulmonalis.
Frank B. Brown,	Chronic Bright's Disease.
George C. Chamberlain,	Asiatic Cholera.
Moses B. Cobb,	Scarlatina.
Walter Elwell,	De Inimicis Occultis Nostris.
Oscar S. Erskine,	Urethrostenosis.
Edwin W. Gould,	Conduct of Normal Labor.
Ambrose H. Harding,	Anæsthetics and Anæsthesia.
William King, A. M.,	Aneurism.
Delorme G. Luce,	Acute Articular Rheumatism.
John W. Nichols, A. B.,	Appendicitis.
Francis S. Packard,	Locomotor Ataxia.
Henry W. King, A. M.,	Diphtheria.
Arthur W. Rowe,	Thrombosis & Embolism.
Herbert B. Royal,	Puerperal Eclampsea.
Carleton K. Sparrow,	Intestinal Parasites.
Edward F. Stevens,	Treatment of Typhoid Fever.
Edwin L. Thompson,	Typhoid Fever.

ANNOUNCEMENT.

THE MEDICAL SCHOOL OF MAINE, by an Act of the Legislature, is placed under the Superintendence and direction of the Board of Trustees and Overseers of Bowdoin College. By their joint authority all the degrees of M. D. are conferred.

The 68th Course of Lectures will begin FEBRUARY 9th, 1888, and continue twenty weeks, ending June 28th. The introductory lecture will be delivered at 3 o'clock P. M., by Prof. Franklin C. Robinson.

MEANS OF INSTRUCTION.

The specimens of Normal, Morbid and Comparative Anatomy are annually increased in number. The Museum has lately been thoroughly rearranged and enriched by purchases abroad.

The Chemical Department embraces every article of apparatus essential to a complete illustration of the principles of Chemistry.

A new laboratory has recently been furnished for special courses in analytical chemistry, urinary analysis and toxocology. These courses are strongly recommended to every student. They will be entered upon immediately after the closing of work in the dissecting room.

The lectures in Physiology are illustrated by Auzoux models and by experiments.

Dr. Albion G. Young will continue his instruction in a short course of lectures upon Public Hygiene.

Instruction in Normal and Pathological Histology is afforded without extra charge. A short course of Lectures upon Microscopy will be given by the Demonstrator of Histology. Students owning Microscopes are requested to bring them for use in their classes.

Students are advised to prepare for their Anatomical and Physiological studies by the dissection of the cat, dog, rabbit and frog, using Wilder & Gage's Anatomical Technology, Foster & Langley's Practical Physiology, or Huxley & Martin's Biology. Abundant Dissecting Material is furnished at cost.

CLINICS.

Medical and Surgical Clinics will be held every SATURDAY MORNING during the last half of the term, beginning at nine o'clock and closing at half past eleven.

All examinations in the presence of the Class are made without charge. All surgical operations are gratuitously performed.

TERMS OF ADMISSION.

Candidates for Matriculation will be required to give evidence that they possess a good English education. Those who are graduates of Colleges, Normal Schools, High Schools, or have passed the entrance examination to any recognized College, on presentation of their diplomas or matriculation tickets, will be exempt from examination. Examinations will be held on THURSDAY, FEBRUARY 8th, at 9 o'clock, A. M.

The Fee for admission to the several Courses of Lectures, *payable strictly in advance, and by cash only*, is $78. Matriculation Fee, payable each term, $5.

Pupils who have attended two full courses of Medical Lectures, one of which has been in this School, are admitted to all subsequent courses without payment of any Lecture Fees.

Students who have attended two full courses at other regular Medical Institutions, are required to pay $25 for admission to their first course of Lectures at this School, in addition to the Matriculation Fee.

The Graduation Fee, (which is not returnable), including the Diploma, is $25.

No student will be allowed to attend any Course of Lectures in this School, without the certificate of the Secretary. Members of the Medical Profession are cordially invited to attend the Lectures at any time.

Graduates of other Schools, who have been engaged three years in the regular practice of medicine, may receive a general ticket upon presentation of their diplomas and payment of the Matriculation Fee. Students are expected to remain until the close of the term.

EXAMINATIONS AND GRADUATION.

Students and particularly candidates for graduation will be examined at least twice each week in each department by its Professor.

The Faculty, believing it to be desirable for students to pay especial attention to the primary branches during the first portion of their course of study, in order that they may be better prepared to appreciate the more ad-

vanced subjects in the latter part, voted eleven years ago, that any student might present himself for examination in Anatomy, Physiology and Chemistry (any or all), at the regularly appointed time for examination, provided he previously presented to the Secretary satisfactory evidence that, at the close of the current term, he had completed at least twelve months of actual study, and had attended a full course of lectures in this School. Those who are examined in Anatomy are required to present evidence that they have under competent instructors dissected not less than two parts. The same requirements will be enforced in the cases of those who are examined in this department at graduation. Seven years ago they voted additionally that any student may present himself for final examinations in Materia Medica and Therapeutics, and in Obstetrics, at the regularly appointed time for examination, providing he previously presents to the Secretary satisfactory evidence that, at the close of the current term, he shall have completed at least two years of actual study and have attended two courses of Lectures, the second of which must have been in this School. An official record of the result of the successful examinations shall be kept by the Secretary. The successful passage of an examination will not exempt a student from faithful attendance upon any exercises in any department during subsequent courses.

The examinations for the Degree of Doctor of Medicine are held by their Faculty of Medicine at the close of the course of Lectures. Degrees will be conferred upon Wednesday morning, June 27th, after the usual graduating exercises.

The candidates must be twenty-one years of age, and must have devoted three years to their professional studies under the direction of a regular Practitioner of Medicine. They must have attended two full courses of Lectures in some regular, incorporated Medical Institution, and the last course previous to examination must have been at this School, and fifteen months' time must elapse between the beginning of a Student's first course of lectures and his graduation. They must deposit with the Secretary of the Faculty satisfactory certificates of good moral character, and of having pursued their medical studies for the required term. They must also pass a satisfactory written and oral examination in Anatomy, Physiology, Surgery, Chemistry, Materia Medica, Pharmacy, Obstetrics, Pathology and Practice. They must also present a Thesis or Dissertation on some medical subject, a fair copy of which must be deposited with the Secretary of the Faculty at least ten days before the commencement of the examination

at the close of the Lectures. These copies are preserved in the Medical Library.

Students on arriving should call at once on the Secretary of the Faculty to enter their names, present their certificates, and purchase their tickets. They may also obtain from him all necessary information in regard to boarding houses.

Price of Board from $3.00 to $5.00 per week.

By order of the Faculty.

ALFRED MITCHELL, M. D., Secretary.

Brunswick, August, 1887.

TEXT BOOKS.

Anatomy—*Text Books*, Quain, or Gray; *for the dissecting room*, Ellis's Demonstrations, or Heath's Practical Anatomy; *for reference*, Braune's Topographical Anatomy, Flower on the Nerves, Frey's, or Satterthwaite's Histology.

Chemistry—Bartley's Medical, Richter's organic and inorganic.

Physiology—Ashby, Dalton, Flint, Foster, Martin.

Materia Medica and Therapeutics—Bartholow, H. C. Wood, Biddle, Stille, Ringer, Headland, Gerrish on Prescription Writing.

Practice of Medicine—Flint, Bartholow, Roberts, Bristowe, Niemeyer.

Pathology—Green, Reindfleisch, Wagner, Virchow.

Physical Diagnosis—Clapp's Tabular Handbook, Flint, DaCosta, Loomis.

Diseases of Children—J. L. Smith, Vogel, West.

Surgery—Agnew, Gross, Erichsen, Druit, Clark, Greene's Questions, Gerrish's Translation of Championniere's Antiseptic Surgery.

Surgical Pathology—Billroth, Paget.

Midwifery—Lusk, Playfair, Parvin, Galabin.

Diseases of Women—Thomas, Barnes, Winckel.

Medical Jurisprudence—Tyler, Ordronaux, Beck.

BOWDOIN

Medical Alumni Association.

ORGANIZED 1884.

—OFFICERS:—

PRESIDENT—H. H HUNT, M. D, - - Portland

1ST. VICE PRESIDENT—D. A. ROBINSON, M. D., - Bangor

2ND. VICE PRESIDENT—B. F. DUNN, M. D., - Windham

SECRETARY—CHARLES D. SMITH, M. D., - - Portland

TREASURER—F. H. GERRISH, M. D., - - Portland

These five officers constitute the Executive Committee.

The objects of the Association are the revival of the memories of student life, the establishment and perpetuation of friendly relations among the graduates of the Medical Department of Bowdoin College, and the advancement of the interests of medical education.

Any person on whom a degree in medicine has been conferred by Bowdoin College may become a member of this society by signifying his desire to this effect in writing to the Secretary, and paying one dollar to the Treasurer, provided his character and professional standing be satisfactory to the Executive Committee.

The annual meeting is held at the Medical School on the day of the graduating exercises.

It is hoped that all graduates of the Medical School of Maine will immediately take the steps necessary to become members of the Alumni Association, as the success of the Society contributes to the prosperity of their Alma Mater.
